European Inventor Award 2016

Dear Mr Ebbink,

The 2016 edition of the European Inventor Award is already open for new entries and we would be very pleased if the EPLAW would agree to support next year's event by encouraging your own members to propose candidates. The high reputation of the Award is directly linked to the high calibre of the nominations we receive, which is why the help of the EPLAW is so important to us.

As in previous years, we would like to showcase inventors who have made significant contributions to the economy and society in Europe. The resultant publicity for all finalists and especially winners next spring will reflect well not just on them but also on the EPLAW members who supported them.

Proposals should reach us **as soon as possible, at the latest by 14 October 2015** to european-inventor@epo.org.

Those who nominate an inventor who is selected as a finalist by our jury will be invited to the Award ceremony. The list of finalists will be published in April 2016.

For more information about the competition, and the entry form, see www.epo.org/european-inventor. If you need advice on how to submit proposals, please do not hesitate to contact the organisation team on +49 89 2399 1830 or via email at european-inventor@epo.org.

The next European Inventor Award will take place on 9 June 2016 in Lisbon, Portugal.

I look forward to receiving your members' proposals.

Yours sincerely,

Benoit Battistelli
